Of Storey.

FOR STATE PRINTER,  
**J. C. HARLOW,**  
Of Ormsby.

YOUNG REPUBLICANS

[Carson Tribune.]

The young men are making themselves felt more and more in every department of public life. Indeed, in all forms of activity they are beginning to be felt as a power. It is so in business. Some of the most energetic and enterprising of our business men are on the sunny side of 40. And as young men are interested in politics, it is well that they should organize their strength, and wield it unitedly. The effect is to give them experience in organization, leadership and the like. It serves to educate them in the principles of politics, and in the methods of party management and discipline. From their numbers and intelligence the young Republicans of Carson should become one of the ruling forces of the party. We entertain no doubt that this ultimately will be the case. With a strong vote, activity and organization they represent a power not to be despised.

Training and discipline, as well as a broad intelligence, are essential to a part in politics. So diversified and complicated are the influences at work that nothing short of a strong and well furnished mind will be ready to grasp all and choose the better course. There are now, for example, among the independents, a few who are honest of purpose and who believe themselves true Republicans. They are simply untrained. They do not understand practical politics. Sentiment rules them. They have ideas of what the party should be, and seek to realize them. But in doing so they really take a course that tends to prevent what they seek. The Democracy will never work out political reform. Their whole object, once in power, will be to retain it by old plans and methods. A beaten party cannot work effective reform.

A Home Endorsement.

The Bangor Whig and Courier, of Maine gives our Lieutenant Governor the following endorsement, which speaks well as coming from his old stamping grounds.

We are pleased to learn that Mr. Charles E. Laughton formerly of this city, but now of Carson City, Nevada, has received the Republican nomination for Lieutenant Governor of the State of Nevada. Mr. Laughton is a Bangor boy and went west some fourteen years ago to seek fame and fortune, both of which he is likely to achieve. He now holds the highly responsible position of Auditor and Paymaster of the Virginia & Truckee Railroad Company, having won the position by his own unaided efforts.

JAMES F. HALLOCK.

When people find an efficient officer they ought to stand by him and keep him in office. The people of the State have now a Controller who is worthy of their support from every standpoint. James F. Hallock has, during his four years of official life proven himself a fearless, clear-headed, honest man. No private consideration has ever swayed him a peg from what he considered his duty. As an illustration of this we mention a case we know of. Just after he had voted the bill to aid the Catholic Orphan Asylum of Virginia City, because it was a sectarian institution, a friend told him that he did not have enough political consideration for himself, that that veto would antagonize the entire Irish vote. Hallock replied: "I will be like the Cumberland that went down with its flags flying and guns booming. I was elected Controller for this term and not for the next, and shall do my duty as I find it." Such a man will do to stand guard over our Treasury. To Controller Hallock are we indebted for the excellent prospects the State has of being refunded three hundred and fifty thousand dollars advanced in war claims during the Rebellion, and in the several Indian wars. Mr. Hallock, in his endeavors to make up the falling off in revenue caused by the failure of the bonanzas and depreciation of property, went to work among the dusty archives of the State, ransacking the vaults of every office in the Capitol, and collected every item of expenditure made by the State for these purposes. As a consequence he has collected enough material to make a pamphlet of about a hundred pages. Governor Kinkead was armed with these papers when he went East a year ago, and through them was enabled to get the bill passed to examine the records and have the just claims paid. When Captain John Mullan, who was sent out from Washington to examine the records, had made his examination, he made a very flattering report of Mr. Hallock's indefatigable energy and forethought. Such a man will do to tie to.

Mr. Hallock's diffidence has prompted him to conceal all such things from the public, but they should be known and he be given full benefit. No amount of bulldozing will force him, no amount of flattery will wheedle him into doing anything he believes to be wrong. His law books are well thumbed and that he reads them aright is evidenced that in the half dozen cases in which suits have been commenced in the Supreme Court to mandamus him he has been sustained every time. His official life needs but to be known to warrant every citizen who wants a true and good man in the responsible place of Controller to vote for him, regardless of party. Hallock's majority ought to be very large.

NEW YORK TRIBUNE.

The political situation in New York is a peculiar one, and the outcome can only be a matter of conjecture. Both parties have nominated for Governor, gentlemen of undoubted ability, honesty and integrity. Judge Folger, the Republican nominee, is a giant in intellect, and his record as a public officer and as a private citizen is above reproach. Yet he will undoubtedly fail to receive the support of a large number of Republicans in that State, because of his avowed friendship for Senator Conkling, and through whose influence, aided by the administration, his nomination is alleged to have been secured. The Democrats have exhibited unexampled wisdom in the selection of their candidate for Governor, Grover Cleveland, their nominee, is a lawyer of Buffalo, and it is conceded on all sides that he is one of the ablest and very best men in the State of New York. His character was so good that not long since, tired of ring-rule, the Republicans of Buffalo joined with the Democrats and elected Mr. Cleveland Mayor of that city by a large majority. In that office he won the respect of all; put down dishonesty without respect to party, and guarded the public interest most carefully. He is without doubt the strongest man the Democrats could have selected, and his nomination is all the more dangerous to the Republican cause because of the fact that he has been once placed in office by Republican votes, and did not in the least betray the trust imposed in him. It is said that many prominent Republicans have declared their intention to support Mr. Cleveland and that Buffalo is practically solid for him. It is evident that this nomination, the unity of the Democratic party, with the seeming discord in the Republican ranks, points to a Democratic victory in New York as among the possibilities.

Some figures recently prepared at the Treasury Department, regarding the public debt, are interesting. They show that the annual interest charge is now \$1 09 per head for all persons in the United States. In 1865 it was at its highest, being \$4 29 per head. In the following year it was \$4 12, and a year later \$3 84, and grew gradually less until 1871 it touched \$3 per head. Now it has fallen to \$1 09, and soon must go below that.

A Mountain of Copper.

The editor of the Aurora Herald visited the mines in Santa Fe District, of which there has been so much talk of late, and has this to say of the Copper King mine: "Of course, from reports, we expected to see a large mine, but not a mountain of ore, as certainly the Copper King is. How for years prospectors have actually worn trails deep into this vast ore body in search of hidden treasures, passing the bonanza by unnoticed, is a conundrum we are unable to answer. T. J. Bradley is the original locator, and about two years ago, for a small consideration, disposed of the mine to Eli Johnson, formerly of Aurora. A short time since Johnson sold to E. B. Burdick, the present owner, for a round sum of money. The mine is situated in the mountain range north of Soda Springs Valley, and about seven miles east of Luning. The altitude is 5,000 feet above sea level and 1,700 feet above Soda Springs Valley. The ore crops out boldly for a distance of 1,200 feet, with an average width of about 100 feet. Within these lines it is utterly impossible to stick a pick down five inches without encountering ore, and that of high grade, too. The mine has been prospected by shafts and tunnels to a depth of 50 feet, and a thousand small holes here and there on the surface, samples from which show the handsome average of 18.3 10 per cent. copper. Surveys have been made which give in round numbers 45,000 tons of ore as far as developed, after making the liberal deduction of 25 per cent for losses, barren spots, etc. Putting the ore even at low as 15 per cent the result is \$2,295,000. But there is no probability of the ore giving out at the depth mentioned, and it would be impossible to give the amount of ore in the mine (or rather mountain), or come anywhere near it. To give our opinion in brief: It is the biggest and best copper mine we ever saw. A tunnel 300 feet would tap the ledge at a depth of 400 feet. But ore to run a number of furnaces for a year or two can be breasted from the mountain side at an expense so trifling that it is hardly worth mentioning. Two furnaces with a capacity each of 35 tons have been ordered, and will be put up in the edge of the valley, about three miles from the mine. A road from the mine to the furnace will be a side-track to the furnace, thus giving cheap rates for needed supplies. Mr. Burdick has secured a spring of water about three miles from the furnace site, that flows fully seven inches. Thus it is seen that every facility is near at hand to make the Copper King one of the best pieces of mining property on the Pacific Coast, if not in the United States, and we congratulate the owner on his good fortune."

About Mining.

Some persons, arguing from the stand point of the great amount of money which individuals may have sunk in gold and silver mining ventures contend that mining does not pay. We differently apprehend the situation. Much of the money so sunk has been lost by those who formerly owned it by reason of their own mistakes, some of them wilful, others of ignorance. Of the former many of the losses need never have occurred had they exercised the same care and calculation which in other departments they would have put forth. The latter have rightly come out "at the wrong end of the horn." It is with them a case of "diamond out diamond," and they get out. But looking at the question in the general sense the money which has been "sunk" mining proper has obtained a circulation and produced absolute benefits.

If gold being our standard of values—every dollar got out of the earth cost one dollar to produce, the world is one dollar better off than it was before, and all the time the dollar expended has been a lively one as distinguished from the dollar which, with so many of its companions, lies so long in the bank vaults unemployed and of no service to anyone. Without the dollar which, through the instrumentality of the mining man, has been passed around, the dollar produced could not have been a factor in the wealth of the nation, and the dollar which produced it would have been an unprofitable one.

Supposing that every dollar produced cost two dollars, there has been a definite gain of 50 per cent. Something has been produced out of what was practically nothing, and production is one which will not wear out or be consumed like woolsen or cotton fabrics, or even like iron or coal. It is almost indestructible, and can always and under all circumstances be made available. It is for all time, good at all times, and hence has to be regarded differently from anything else. Twenty-five per cent in our time is an enormous profit in ordinary business, but if one dollar in gold should even cost four dollars there will be found to have been a profit of twenty-five per cent. on the outlay.

Judge O. R. Leonard.

The Carson Tribune says: "A few words relative to the gentleman may not be amiss at this time. The Tribune had the pleasure of bringing the Judge's name before the people six years ago, and has, with much pleasure, advised his re-election. Our motto is, keep a good Judge on the Bench as long as he may be willing to accept the position, and this particularly applies to the office of Supreme Judge. Judge Leonard has made such a record as the State, the bar, his friends and he may well be proud of. A hard student, an urbane gentleman, a loyal companion, respected by all whom he has come in contact, and in his position of Chief Justice he has gained the esteem of all the attorneys who have appeared before him. A staunch and unflinching Republican has Judge Leonard ever been, and it is a pride to his political godfather to know that he surely will succeed himself."

Demoralized.

The Eureka Leader says that Mr. George H. Shepherd, of Elko county, has withdrawn from the Democratic ticket as a candidate for State Treasurer. Mr. Shepherd is a far-seeing politician, and doubtless hesitates to pay several hundred dollars for the empty honor of a nomination and the bitterness of defeat. He will as is usual in such cases, assign some cause that will aid in breaking the bad effect of such a move on the party, but the fact will remain and will be understood that figuratively speaking, the rates are deserting a sinking ship.

A private dispatch from Chicago states that the body of James Hay Smith, an old resident of San Francisco, Cal., was found Monday floating in the lake. From the condition of the body there is strong suspicion of foul play. He has resided in Chicago for several years.

Up to this time there are but 1,600 voters registered in Virginia City. This is a wonderful falling off from that of former years. It is alleged that Storey county will not poll to exceed 2,500 votes at the approaching election.

WEDNESDAY .....OCTOBER 11, 1902.

\* PRICE OF DAILY JOURNAL,  
12 1/2 CENTS PER WEEK.

## TOWN AND COUNTY.

## BREVITIES.

Mrs. Geo. E. Perkins went to the Bay last night.

State Printer Maddrell was in Reno yesterday.

Mrs. A. Raphael is at Mrs. M. Nathan's on a visit.

G. W. Chesley, Deputy Secretary of State, is at the Palace.

Miss Mamie Cohn has returned from Virginia City after a brief visit.

The Arcade Hotel is now under the management of Mrs. D. McFarland.

Snow fell to a considerable depth on the mountains Tuesday and last night.

Arnold Good, formerly of the firm of Badger Bros., is here taking in the fair.

The Republican candidates will start out on the war-path the first of next month.

Charley Chase disbursed 40,000 yesterday in the purchase of votes for Red-hose Thompson.

There is serious talk of bringing an action against the clerk of the weather for misconduct in office.

Bobbie McGinley, with his dramatic troupe is playing to good houses in the eastern part of this State.

Some of our local weather sharps declare that we need not expect any more pleasant weather this year.

Bishop, Leonard, Powning and others spoke at Winnemucca last night, and will speak at Battle Mountain to-night.

The exhibition at the Pavilion, it is said, will be continued throughout the week. The nightly attendance is greater now than it was the first week.

There was a very good attendance at the track yesterday notwithstanding the inclemency of the weather. The boys refuse to allow the weather to interfere with their fun.

J. D. Sims, H. J. Carlin, D. P. Randall and Thos. Gavin, all from Dayton, are sojourning at the Pollard House. Charley Cummings, of Virginia, is also there taking in the fair.

Wm. Thompson, Franktown, is in town. He came in to witness the last performance at the Fair Grounds for this year, but the inclemency of the weather persuaded him to postpone the matter until next fall.

Since the N. & O. commenced to carry the mails from Reno to Antelope near Susanville neighbors got their mail matter three hours earlier. Passengers who come in from the north say it is a great relief to board the cars at Antelope and finish their journey by rail.

The Bellevue Chronicle, (Idaho) says that I. D. Cross, of the Capital Hill, in that city, who has been very ill for some time, and who at one time was not expected to live, is much better and able to be about the house. Mr. Cross resided for years in Reno, and is well known all over this State.

Mrs. Sophia Steel, mother of William and Robert Steel, died at the residence of her son Robert, on Truckee Meadows, Tuesday, at the ripe old age of 85 years. The funeral will take place today at 10 o'clock A. M., from the residence of Robert Steel. Friends and acquaintances are requested to attend.

John H. Moon, wife and child, from Jonesville, Cal., are stopping at the Pollard House. Mr. Moon is one of the most renowned builders of flour mills on the coast. He superintended the construction of the Silver State Mills, and has just completed another fine flour mill in the northern country.

Ben Jamison, the brother of our Postmaster, and family, took their departure yesterday morning for their old home in Indiana, Pennsylvania. Mr. Jamison has been a resident of Reno for a number of years. He has closed out his business affairs here and is going back to Pennsylvania to spend the remainder of his days. Mr. Jamison is a straightforward, upright business man, and leaves this community with the respect and good will of all.

## Fading Royalty.

Old Winnemucca, the veteran war chief of the Piute nation, is at Buffalo Meadows, in Reop county, rapidly traveling toward the happy hunting ground. He is so far gone that he can no longer stand on his feet. He is attended by his two aged sisters and his son Lee.

## Why Not?

It used to be the custom in the good old days of yore, for the candidates, after having been placed in the field, to club together and give a grand ball, as a pleasant and economical way of meeting and entertaining their friends. Voters dance and dancers vote. Why not try the scheme this year.

## Brakeman Killed.

Just before freight train No. 7 reached Hot Springs Sunday morning, Thomas Gregor, forward brakeman, fell between two water cars, and was run over and instantly killed. Mr. McNevin, the engineer, told Gregor to go back and tell the hind brakeman that they would not stop for water at Hot Springs. The hour was about half-past three, and Gregor foolishly left his lamp on one of the front cars, and as he was returning to his post forgot that the distance between the water cars was greater than between two ordinary freight cars and stepped short, and went down to his death. His remains were taken to Winnemucca, and his funeral took place Monday. Deceased was a young man 25 years of age, and had only been on the road two months. He has a brother at Winnemucca.

## The Dreadful Comet.

The World's London cable says: The comet is all the talk in scientific circles at present, and it is being regarded with considerable apprehension. Richard A. Proctor, who denied that it was the comet of 1848 and 1880, now finds that he made a mistake in his calculations and so withdraws his statement. More cautious astronomers than he have no doubt of the identity of the comet, and believe that it will return in October, 1883, at the latest, and then fall into the sun, which will enable you to dispense with the future publication of the World. I am assured that this is the opinion of the most eminent scientists of the day, C. Parazi Smith, the clever Astronomer Royal for Scotland, in particular, having made no secret of his belief.

## Just a Hint.

In Holland they have a way of planting potatoes that may have importance enough to recommend its trial here. The land is first thrown into beds by the spade or plow. These beds are from ten to twenty feet wide, and are crowning in the middle, with trenches upon each side. Upon these beds the potatoes are planted with a heavy punch or ground auger, from four to six inches deep, and from twelve to fourteen inches apart each way. During the season the surface is kept free from weeds, but no hilling is ever done. The various kinds of grains are always sown upon similar beds and kept equally free from weeds. Onions are usually sown broadcast. The tilled lands are kept as free from weeds as our best kept gardens in America.

## Mr. McKelvey's Reception.

The Sacramento Record-Union of Saturday has the following relative to Rev. C. McKelvey, late pastor of the M. E. Church here: The members of Kingsley Chapel gave a social reception to their new pastor, the Rev. C. McKelvey, last evening. The attendance was large and included a number from other churches. The welcoming address was delivered by Rev. T. S. Dunn. Remarks were made by Rev. T. H. E. Anderson, Rev. A. J. Frost and Rev. Mr. Stanley. Mr. McKelvey, in a few well-chosen remarks, returned thanks for the kindly manner in which he had been received by the people of Sacramento.

## Emeralds Fair

The second annual fair of the Walker River Agricultural Society will commence in Mason Valley on the 17th instant, next Tuesday, and will continue for four days. The arrangements to make the fair a grand success in every particular are in the hands of men who understand how to "make the mare go," and will spare no time or money to accomplish their undertakings. A large number of people from all parts of the State will be in attendance. The list of premiums is a large and good one. It would be a capital idea for the State Fair trustees to see to it that Washoe county is represented there.

## District Court Proceedings.

Jacob Leonhardt was made a citizen, renouncing his allegiance to his Majesty, King Ludwig of Bavaria. In the case of Wooley vs. Fraser it was ordered that defendant have twenty days stay of execution. The case of Towell vs. Thompson, Elt vs. Thompson, Bowers vs. Thompson and Rogers vs. Thompson, by consent of parties, were continued to November 19th. The Grand Jury and Court adjourned till to-day at 10 A. M.

## Walnut Trees.

The Winnemucca Silver State says that J. S. Bonniester, of that town, has five walnut trees in his garden, which bear fruit this year. Several of them are loaded down with nuts, so that the top, bending beneath the load, was beaten off by the wind. Walnut trees seem to do as well here as in the Western States, where they are indigenous to the soil.

The cheapest picture frames and picture and cornice mouldings in the town at Osburn & Shoemaker's.

The best and cheapest sewing machines are to be had all the time at Osburn & Shoemaker's.

## PREMIUMS AWARDED

Names of Owners of Stock That Have Drawn Prizes.

## THOROUGHBREDS HORSES.

Stallions—Best 4-year old, George Hearst's Red Boy.  
Best 3-year old, Geo. Hearst's Duke of Monday.

The best domestic cigars to be found in the State are always kept on hand; also all the favorite brands of smoking and chewing tobacco and cigarettes. Playing cards and all manner of notions, fancy cutlery, etc., at the lowest rates.

## The Price of Produce.

In an agricultural country like Truckee Meadows it is an important point with each farmer to know at what specific prices he can sell his wheat, barley or grain. There are many agriculturists who bargain for their growing crop before it is reaped. While there is considerable guesswork about the matter, still such is the system extensively prevailing in California. There, as a general rule, the farmers pay a visit to San Francisco and make arrangements for their future crops. The farmers of this valley have no such facilities, being entirely dependent on the flour mills and the railroads. Each farmer, according to his circumstances, raises or lowers the price of his produce either to suit his fancy or in accordance with the scarcity or plenty of the market. It has been suggested by several farmers, that the agricultural men of this valley unite together and adopt a regular schedule of rates by which the buying and selling of the neighborhoods' produce may be regulated. Yesterday, for instance, three loads of barley from the outside ranches arrived in Reno and were disposed of at \$1.50, \$1.60 and \$1.65 per hundred. Though Reno is scarcely able to maintain a Board of Trade, yet many thoughtful citizens are of the opinion that it would help wonderfully both the commercial and agricultural interests of the valley to have some kind of an organization which would regulate these matters. They have them in every Eastern and many Western cities and are all benefited by them. Might not Reno try her hand at a similar project?

**Mothers! Mothers!! Mothers!!!**  
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of **MRS. WINSLOW'S SOOTHING SYRUP**. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. Jan 19-17-84 WPAW

A large and choice assortment of bird cages just received and for sale by Osburn & Shoemaker.
